## PRESS RELEASE

FOR IMMEDIATE RELEASE:

### Gig Werks announces its partnership with BrightWork

Starting November 2009, Gig Werks is now an official partner of BrightWork.

This partnership allows Gig Werks to continue to expand on the high impact, high value solutions it delivers to its clients and completes Gig Werks AEC offering of a complete end to end solution in SharePoint with BrightWork providing the Project Management piece to the puzzle. Gig Werks is extremely excited about the partnership and feels it holds great potential going forward.

Henry Hilska, PMP, a partner at Gig Werks states, "This partnership allows us to deliver a complete turnkey solution for the AEC and other clients wanting to manage their projects on SharePoint. As a project manager I am also looking forward to utilizing the product on our own projects."

Gig Werks is a Microsoft Gold Certified and Field Managed Partner. Gig Werks skills in SharePoint, Custom application development and Advanced Infrastructure deliver solutions incorporating SharePoint 2007. Gig Werks has expertise across the Six Pillars of SharePoint including Business Intelligence, Enterprise Content Management (ECM), Collaboration, Business Process Automation, Search, Portals as well as Unified Communications, and provide clients with secure, connected solutions that streamline business processes and yield maximum returns on investment.

BrightWork is the leading provider of innovative SharePoint applications for collaborative project management and enterprise rollup reporting. Leading companies and government organizations around the world rely on BrightWork solutions to help them better manage their work, projects, and processes.
